SUMMARY

B.Tech in Artificial Intelligence and Machine Learning with expertise in machine learning, deep learning, computer vision, NLP, and cloud-based AI. AWS Certified AI Practitioner experienced in model development, deployment, and applied research for real-world AI solutions.

EDUCATION

Bachelor of Technology in Artificial Intelligence and Machine Learning

Thakur College of Engineering and Technology · Mumbai · 2025 · CGPA – 9.57

PROJECTS

Travel AI Guide – Plan your Itinerary with AI – <https://ai-travel-guide-blush.vercel.app/>

- **Features:** Generate personalized itinerary on the basis of budget, no of people and other preferences, get real time weather data of destinations
- **Tech Stack:** Next.js, Azure Cosmos DB, OpenWeatherMap API, Open AI API – GPT 4.1, Vercel for deployment

Medi-Portal – Secure, Scalable & User-Centric Healthcare Platform – <medical-portal-beta.vercel.app/>

- **Features:** Healthcare app with secure authentication, patient record handling, role-based dashboards for doctors and receptionists.
- **Tech Stack:** Next.js, TypeScript, Upstash Redis, OpenAI API , Vercel for deployment

Formula-Dash – Interactive F1 Data Visualization Platform – <formula-dash.info/>

- **Features:** Formula 1 analytics platform with dynamic, filterable visualizations for race results, driver statistics, and team performance.
- **Tech Stack:** Streamlit, Plotly, Pandas, AWS EC2 for deployment.

Satellite Image Processing – Dehazing, Mosaicking and VQA – [Research Paper](#)

- **Dehazing:** Developed a GAN-based generative AI model to enhance satellite imagery by removing atmospheric haze and improving visual clarity.
- **Mosaicking:** Built a real-time image mosaicking pipeline using SIFT for seamless satellite image stitching.
- **VQA:** Implemented a Visual Question Answering (VQA) system enabling intelligent satellite image analysis through NLP and Open AI API..

StatSense – Exploratory Data Analysis in a Snap – <stat-sense.streamlit.app/>

- **Automated EDA:** Built StatSense, an automated data exploration tool using Matplotlib, Seaborn, and Plotly to generate insightful visualizations.
- **Data Preprocessing:** Implemented handling of null values, duplicates, and missing data to ensure data integrity.
- **ML Integration:** Enabled easy application of supervised algorithms , including Recursive Feature Elimination for model optimization.

SKILLS

Programming Languages: Python, Java, JavaScript, SQL, HTML5, CSS3

Machine Learning & AI: Deep Learning, Computer Vision, Generative AI (GANs), Natural Language Processing (NLP), Model Training & Fine-tuning, Data Preprocessing, Feature Engineering, Model Evaluation & Deployment

Frameworks & Libraries: TensorFlow, PyTorch, OpenCV, Pandas, NumPy, Scikit-learn, Matplotlib, Flask, Django, React.js

Cloud Platforms & Tools: AWS (EC2, S3, Lambda), Google Cloud Platform (GCP), RESTful API Development, Git/GitHub, MongoDB

Soft Skills: Problem-Solving, Research & Development, Technical Documentation, Leadership, Collaboration, Communication

CERTIFICATIONS

AWS Certified AI Practitioner AIF – C01

Amazon Web Services · 2025

Validates expertise in AI/ML fundamentals, AWS AI services (Amazon SageMaker, AWS Bedrock, AWS Polly, AWS Rekognition), and deploying cloud-based AI solutions.

EXPERIENCE

Technical Intern

Aastha's Apparel Atelier

June 2024 – August 2024, Mumbai, India

- Developed a Python (Streamlit) billing system with product management, automated GST/discounts, PDF invoicing, and cloud deployment.
- Optimized a WordPress e-commerce site by customizing themes, integrating plugins, and improving performance for better UX.

Creative Head

SuperAI Community Stakeholder Connect

August 2022 – May 2024, Thakur College of Engineering and Technology

- Organized AI/ML-focused events, ideathons, and hackathons to foster collaboration.
- Delivered peer-to-peer training sessions on Python, Pandas, Matplotlib, and Streamlit to enhance data analysis and visualization skills.
- Implemented community growth strategies to boost engagement, increase junior participation, and strengthen the AI/ML network.
